Letter Report Tomichi Tronox 2014-09-25.pdf

Ok, this is the last one for now. I'm asking Toeroek to provide all the completed reports in a single email. This will be a lot easier. Please do not hesitate to let me know if you need anything. Mike

Subject: Tronox - Tomichi

Mike,

Toeroek is pleased to submit the first Tronox report on the Tomichi Creek site. A CD containing the supporting documents will be provided on Tuesday. Please be critical and provide any needed feedback, as we plan to use this template going forward with the other sites. In particular, please comment on the level of detail provided and if it meets the burden of proof for these sites.

For any uranium related sites there is likely abundant information in the Department of Energy,

Atomic Energy Commission, and Nuclear Regulatory Commission records at the National Archives and Records Administration (NARA), should additional information be needed.

We have the following sites in our research queue. Please confirm that this list matches yours.

1. #1890 – Empire Area – Clear Creek Co., CO
2. #1891 – Spanish Bar – Clear Creek Co., CO
3. #1900 – Tallahassee Creek – Fremont Co., CO
4. #1909 – Tomichi Creek – Gunnison Co., CO (COMPLETED)
5. #1946 – Red Mountain, CO (Upper Animas Watershed)
6. #2273 – Park City – Summit Co., UT
7. #(s)? – Uranium Mines in Wyoming – do you have specific names or can you provide additional clarification?

Darren will be providing you a list of challenges that we are encountering while researching Tronox sites.

We look forward to meeting with you on Tuesday (Sept. 30th).

Thank you,

Lindsay Garner | Project Manager
